

Alexandru Macovetchi

Frontend Developer · React / Next.js — open to remote

📍 Chişinău, Moldova (remote) · 📞 (+373) 69859888 · ✉ alexmacovetchi23@gmail.com
🔗 [Portfolio](#) · [GitHub](#) · 🇷🇴 + 🇲🇩 citizenship (EU work eligibility) · 🎂 Age 22

PROFILE

Frontend developer focused on **React** and **Next.js**. I build and ship complete, deployed products, not demos — an e-commerce storefront, an analytics dashboard, a fullstack media tracker with real authentication, and a bilingual **AI chatbot**. Native Russian and Romanian speaker, English B1. Looking for a remote junior frontend role where I can grow toward fullstack.

PROJECTS

WASD — E-commerce keyboard store

[wasd-dun.vercel.app](#)

Next.js 16 · React 19 · TypeScript · Tailwind CSS · Zustand

- ~20 routes: catalog, product pages, cart, checkout, wishlist, user account, admin panel, order tracking.
- Cart and wishlist state managed with Zustand; deployed on Vercel. [Source ↗](#)

Playdex — Games analytics dashboard

[playdex-omega.vercel.app](#)

Next.js 16 · TypeScript · RAWG API · Recharts

- Pulls live game data from the RAWG API and renders it with interactive charts (Recharts). [Source ↗](#)

Senkai — Fullstack media tracker (anime / movies / series / games)

[github.com/.../senkai](#)

Next.js 16 · TypeScript · custom auth & sessions · REST API · AniList / RAWG / Cinemeta

- Real accounts (register / login, salted password hashing, server sessions) and a personal library API.
- Aggregates four content types from three public APIs into one cinematic UI.

LeadBot — AI lead-capture chatbot

[leadbot-inky.vercel.app](#)

Next.js 16 · TypeScript · Google Gemini (AI) · API routes

- Bilingual (RO/RU) assistant that holds a real conversation, qualifies the visitor and captures the lead.
- Backend API routes store each lead, plus an admin panel to review them; the AI provider is isolated and swappable. [Source ↗](#)

EXPERIENCE

Web Developer — Freelance (self-employed)

2026 – present

- Build responsive websites and SEO landing pages for small businesses; deploy on Vercel and Hostinger.
- TerraLux** (paying client): delivered 2 SEO landing pages for a concierge service in Chişinău, live on Hostinger.
- Built and deployed 3 personal Next.js applications (above), all open-source on GitHub.

Online Store Admin & Data Entry — MILAV IT, Cahul

2023 – 2024 · 1 yr

- Administered and updated an online product store; data entry and verification; basic IT support.
